

Sample evidence ledger

View of stratum-sample-evidence-ledger.csv. Original field names and values are retained.

Experience	id	classification	statement	source	status	action
Sample outputs	E1	Source fact	Proposal approvals take too long.	Interaction 1 note	Supplied statement; cause unmeasured	Clarify where time is spent.
Sample outputs	E2	Source fact	Commercial inputs are incomplete; approval ownership is unclear.	Interaction 1 note	Supplied statement	Confirm input owner and reviewer.
Sample outputs	E3	Source scope	Six-week pilot with one team; wider rollout requires separate scope decision.	Interaction 1 brief	Current suggested reference	Preserve scope across outputs.
Sample outputs	H1	Hypothesis	Decisions and handoffs may constrain flow.	Interpretation of E1 and E2	Not established causation	Examine decision steps before tool selection.
Sample outputs	C1	Suggested change	Four weeks without specialist coverage while retaining outputs.	Interaction 2 request	Unconfirmed option	Assess replacement capacity and alternatives.
Sample outputs	C2	Clarification	Four weeks remains an option. Practice lead can review scope; specialist and commercial inputs remain unresolved.	Interaction 3 clarification	Does not replace E3	Retain six-week reference and earlier request.
